

567—101.3(455B,455D) Waste management hierarchy. The state's waste management hierarchy is listed in descending order of preference:

1. Volume reduction at the source;
2. Recycling and reuse, including composting;
3. Combustion with energy recovery;
4. Other approved techniques of solid waste management including, but not limited to, combustion

for waste disposal and disposal in sanitary landfills.
